Learn more about upcoming bidding opportunities on the CPTC - Concourse T North Extension project at the Hartsfield-Jackson Atlanta International Airport.

We are excited to invite you to participate in the next phase of construction opportunities. It is our commitment to engage firms of all sizes, including minority and female -business enterprises certified with the City of Atlanta.

Can't prime? No problem! We will help you get connected to primes that have expressed an interest in the project to help you with potential partnering or tiered subcontracting opportunities.

Due to COVID-19, we have provided the information via a virtual platform on our SNFS website.
